

YOUR PLANNING CHECK LIST

What are the space dimensions?

windows yes no

doors yes no

baseboards yes no

radiators yes no

power points yes no

Is the floor uneven? yes no

Before meeting with your **raumplus** specialist detailer to discuss concrete details we recommend that you compile a floor plan sketch (see overleaf) of the space and your desired interior system application taking into consideration the following basics:

- include all windows and doors specifying which direction they open in
- include anything which is unusual – for example projecting walls, chimneys, etc.
- where sloping ceilings are concerned give approximate measurements if possible

This check list with the planning sheet overleaf can also be downloaded at www.raumplus.com.

What should your interior system be like?

recess corner solution

walk-in side sloped ceiling

rear sloped ceiling

For a complete overview of the **raumplus** interior systems, see our »Smart Sliding & More-Technology« brochure at www.raumplus.com.

Have you already decided on a **raumplus** interior system? If yes, which one?

Cornice Uno Legno

Ecoline Rima Rima Fino

Have you already decided on interior systems accessories or a surface? If yes, which ones?

When visiting your **raumplus** specialist dealer please take the check list and planning sheet with you. This ensures that the dealer has the most important information on hand to compile a price quotation for your interior system applications.
