

40 YEARS OF RAUMPLUS – CUSTOM-MADE PRODUCTS WITH EXPERTISE AND PASSION FROM GERMANY TO THE WHOLE WORLD

Germany-based furniture manufacturer raumplus is celebrating its 40th anniversary this year. Since its foundation in 1986, the company has stood for high-quality, custom-made room solutions, technical precision and partnership-based cooperation – both in Germany and internationally.

The S2000 series marked the start of the range of aluminium profiles for sliding doors in 1986

Today, raumplus offers a versatile range of custom-made room solutions

With the development of an aluminium profile system for sliding doors, founder Jürgen Guddas laid the foundation for the success of raumplus in 1986. What began as a North German specialist company for profiles and fittings quickly became an internationally active provider of integrated room solutions. Just one year after its founding, the company entered its first export market in Norway. Today, raumplus supplies customers in around 70 countries worldwide from its headquarters in Bremen, Northern Germany.

In 2001, the first generational change took place: the founder's daughter, Uta Bergmann, and her then husband Carsten Bergmann took over the management and consistently continued to grow the family business. This also increased the space requirements, and so the construction of the new company headquarters in 2006 was another important milestone. To this day, the raumplus headquarters combine modern administrative, production and storage areas with a total of almost 8,000 m² of space. From 2019, Carsten Bergmann continued to manage the company on his own and, from 2022, received support from additional managing directors in the area of marketing and sales.

The raumplus portfolio now includes aluminium profiles and fittings for a wide range of interior projects, as well as custom-made sliding doors, room dividers, wardrobe systems and freestanding furniture. This enables raumplus to meet the diverse requirements of its customers. Particularly popular are the Uno, Legno and Ecoline wardrobe systems, as well as sliding door and pivot door systems such as the S1200, S1500 and S8000 series. The high design and product quality is regularly recognised with awards; most recently, the Pivot Door S1200 received the German Design Award 2025.

Looking ahead, raumplus remains at the cutting edge. At its latest in-house exhibition, the company presented 'CUB*IQ by raumplus', a new brand that offers flexible, expandable furniture concepts with the modular "miio" wardrobe system, all in the usual 'Made in Germany' quality.

The anniversary year will also see a planned change in management: long-standing managing director Carsten Bergmann (left) will leave the company at the end of the first quarter of 2026 to enjoy his well-deserved retirement. Christian Grundler (right), Managing Director of Sales & Marketing since the beginning of 2025, will take over the future management with an experienced team of executives, most of whom have been with raumplus for many years.

With 40 years of experience, clear values and a strong international network, raumplus is ideally positioned to continue its success story.

Please do not forget to mention **raumplus** as the manufacturer:
