

Press information – **Fresh Inspiration for Alcoves, Sloping Ceilings, and More**

## USING CORNERS CREATIVELY

raumplus can deliver much more than just a straight line. The customized room systems 'Made in Germany' exploit every inch of your living space, providing multiple options for use. Alcoves can become anything from a laundry to a workspace while (seemingly) dead areas under sloping ceilings can be re-awakened to a new interior life. How? The Bremen-based specialists can provide exciting examples from past interior design projects.

Take a look!

»Only straight lines from wall to wall would be too easy,« says boss Carsten Bergmann with a smile when asked to describe **raumplus'** strengths in a nutshell. The Bremen-based, family-operated company supplies customized sliding and folding doors, stand-alone furniture, partitioning walls, and interior systems – plus stylish answers to any architectural challenge. As demonstrated by numerous projects in the domestic and commercial segments over the past 30 years.

**raumplus** uses practical examples taken from real life solutions for all areas of the home to demonstrate how to maximize unused potential for space in your own rooms.

The inspirational collection of ideas focuses on alcoves and sloping ceilings, whose unusual dimensions are often too much of a challenge for standardized systems. This is where customized solutions from **raumplus** come into their own, delivering maximal aesthetics in minimal spaces. Folding doors, for example, can transform an alcove in your bathroom into a dedicated mini laundromat. Other ideas range from pantries for tiny apartments through compact home offices, concealed closets in foyers, and vacuum cleaner storage to toy stores in kids' rooms.

Sloping ceilings can be utilized right into the smallest corners without you having to get down on your hands and knees. Sliding doors can be constructed to precisely match the ceiling angle, creating bespoke storage behind their stylish fronts that includes everything from walk-in closets through customized interior systems fitted with shelves and drawers.

The design options are just as diverse. Door panels in matt or clear glass, a variety of wood décors, or lacquered surfaces in any RAL color are framed by silver, bronzed or powder-coated aluminum profiles and can also be fitted with additional rails, handles and much more besides. Whether a mirror, magnetic board/blackboard combination, or your favorite photo as a digital print, **raumplus** can make any wish come true.

Thanks to the cutting-edge technology, extensive know-how, and precise craftsmanship available at its production facility in Bremen, Germany. More than enough reason to take a look at **raumplus** customized interior design solutions that deliver creative, attractive options for any hard-to-use area.
